# Allied Health Programme at SOE 2017

The European Society of Ophthalmology (SOE) is proud to present a scientific stream, through its Congress, which specifically explores subjects central to non-medical professionals working in the field of Ophthalmology.

However, the stream is designed with all delegates in mind and will be particularly suitable for Young Ophthalmologists as well as Ophthalmology Allied Health Professionals.

The 'Allied Health' stream is an integral part of the SOE programme. Registration is for the full Congress, which contains a hugely comprehensive and exciting scientific programme.
