

BIO:

Grayson W Armstrong MD MPH is an ophthalmologist and researcher at Massachusetts Eye & Ear and Instructor of Ophthalmology at Harvard Medical School. Dr. Armstrong has a passion for public health, health policy and advocacy, ophthalmic telemedicine, quality improvement, and medical education. Dr. Armstrong practices as a comprehensive ophthalmologist, cataract surgeon, and medical retina specialist in Boston, MA, USA, and serves as the Director of Ophthalmology Emergency Services where he oversees the Ophthalmic Emergency Room at Mass Eye & Ear. He oversees various aspects of the ophthalmology educational curriculum for medical students, and is involved in clinical and surgical education of ophthalmology residents. He also is the co-founder of a medical device company which aims to enable high-quality ophthalmic telemedicine in remote and international settings.

Dr. Armstrong went to medical school at the Warren Alpert Medical School of Brown University and obtained a Master of Public Health with a focus in Health Policy and Leadership at the Harvard T.H. Chan School of Public Health. He completed his intern year at Cambridge Health Alliance, and subsequently completed his residency, chief residency, and fellowships in ophthalmic telemedicine as well as medical retina at Massachusetts Eye & Ear.
